

# TABLE - 5

Name : \_\_\_\_\_

## Table 5

There lived a little boy called Clive

$$5 \times 1 = 5$$

He had a twin brother called Ben

$$5 \times 2 = 10$$

Together they were always seen

$$5 \times 3 = 15$$

They resembled each other in plenty

$$5 \times 4 = 20$$

Now neat and clean always was Clive

$$5 \times 5 = 25$$

But Ben forever was dirty

$$5 \times 6 = 30$$

Ben and Clive loved to dress alike

$$5 \times 7 = 35$$

A friend invited Ben for tea

$$5 \times 8 = 40$$

As Ben wanted to play, he sent Clive

$$5 \times 9 = 45$$

Clive went dressed as Ben all gritty.

$$5 \times 10 = 50$$
