

# TABLE - 8

Name : \_\_\_\_\_

## Table 8

Furry the fox lived with his mate

$$8 \times 1 = 8$$

His home was a den in the forest so green

$$8 \times 2 = 16$$

Furry wanted to feast on Billy the boar

$$8 \times 3 = 24$$

Of this poor Billy had no clue

$$8 \times 4 = 32$$

Billy was warned by the monkey Zotty

$$8 \times 5 = 40$$

For Billy Zotty was afraid

$$8 \times 6 = 48$$

So Zotty hid in a tree with a stick

$$8 \times 7 = 56$$

Night and day he guarded the boar

$$8 \times 8 = 64$$

When Zotty got the chance, he beat Furry black and blue

$$8 \times 9 = 72$$

He took care of Billy's safety

$$8 \times 10 = 80$$
